I .Application and property

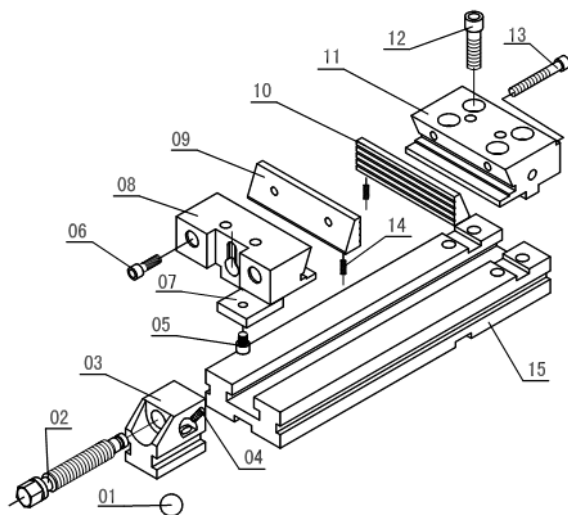

This unit is made from best quality alloy steel. Work surface is hardened with fine roughness. With changeable base, fixed jaw, live jaw, it facilitates the operation with high accuracy of clamping, and is widely used in CNC and other machines.

II .Main technical specifications

Type	Jaw width	Jaw depth	spread	Length
GT853118	100	30	100	270
GT853119	125	40	150	345
GT853120	150	50	200	420
GT853165			300	520
GT853170	175	60	200	455
GT853171			300	555
GT853172			400	655
GT853173			500	755
GT853174			600	855
GT853176	200	65	200	495
GT853177			300	595
GT853178			400	695
GT853179			500	795
GT853180			600	895

Type	Jaw width	Jaw depth	Spread	Length
GT853190	300	80	200	535
GT853191			300	635
GT853192			400	735
GT853193			500	835
GT853194			600	935
GT853195			700	1035
GT853196			800	1135

III. Parts of name

TYPE GT MODULAR PRECISION VISE

Certificate of Quality

This unit has been tested and approved to be delivery.
